

# *Series 53*

## Stage Tracking System

**Oslo Series 53** is a light to medium weight stage track ideally suited to small theatres, school auditoriums, and social clubs.

**Oslo Series 53** is an extruded aluminium track section that can be bent on a radius of 300mm as a hand drawn track only. Corded tracks can only be in straight sections. Smooth operating two wheeled runners each have a working load of 7.5kg, allowing easy operation of both bent and straight tracks.

Available in silver anodised and white powdercoat finish, other colours are available on request.

# Series 53

## Track Bending

\$22.00 per bend.

Series 53 track can be bent up to 90 degrees on a 300mm radius. Series 53 tracks can only be hand drawn on bends.

Note: Some bending that is not being collected from our factory could attract additional freight charges due to their size, shape, and the amount of packaging required to freight them safely.
